Shared agenda IS in delegated competence

Description of Shared Agenda IS in delegated competence

Shared agenda information systems for agencies with delegated competence, such as the Trade Register, Population Register, Drivers' Register and Motor Vehicle Register, will be extended to other agencies of their notifiers, so that if someone is a notifier of an agency with delegated competence, he/she must also provide a central agenda information system (its Middle-Office and agenda portal) with the possibility of integration to local systems of offices in the territory.
